2009 – 2014
Strabrecht College @ Geldrop
- Middle School (VMBO-T)

NOTE

After MBO I've chosen not continuing educating at school. My last years at school felt personally, as a waste of time. Everything that was being told, explained, shown, was something I was already familiar with.

I'm more the type of person that loves contributing to something real, growing and existing that a team is working on daily. Making stuff grow gives me motivation!

At this time I keep educating myself every day by following courses online. I'll watch a lot of tutorials and keep myself up-to-date with the latest techniques, which I personally found more important, rather than spending another few years in school basically just waiting to receive another certificate for things I already know.
